Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Discover & Sign Up	Stage 2 Upload & Generate	Stage 3 Study & Revise
Actions <i>What does the customer do?</i>	- Hears about Learnmate from friends or classmates - Registers with name, email and password - Logs in to the app	- Uploads notes as .txt, .md or .pdf (max 5 MB) - Requests summary, flashcards, quiz and study plan - Waits for the AI to process the material	- Reads the summary and reviews flashcards - Attempts the quiz and checks answers - Follows the study plan day by day
Touchpoint <i>What part of the service do they interact with?</i>	- Sign-up and login pages - Auth API (/api/auth) - JWT session token	- File upload form - Materials API (/api/materials) - Gemini AI processing	- Material dashboard - Flashcards and quiz screens - Saved study plan
Customer Thought <i>What is the customer thinking?</i>	- Will this actually save me time? - Is my account and data safe? - Is signing up easy?	- Will it accept my file format? - How long will the AI take? - Will the summary be accurate?	- Now I know what to focus on - These questions match my syllabus - I can track what is left to study
Customer Feeling <i>What is the customer feeling?</i>	- Curious and hopeful - Slightly cautious about sharing notes - Relieved if sign-up is quick	- Impatient while waiting - Frustrated if upload fails or file is rejected - Excited to see results	- Confident and organized - Motivated by a clear plan - Less stressed before exams
Process Ownership <i>Who is in the lead on this?</i>	- Backend team (auth and security) - Frontend team (sign-up UI)	- Backend team (upload and AI integration) - AI / prompt engineering owner	- Frontend team (study screens) - Admin (content and user monitoring)
Opportunities <i>How can we improve this stage?</i>	- Add Google sign-in and email verification - Show a short onboarding guide - Add password reset	- Show a progress indicator during AI processing - Add clear file error messages - Support DOCX and images (OCR)	- Track quiz scores and progress over time - Add study reminders - Let users export flashcards
