Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Student with lecture notes / PDFs	Turn my material into a summary, flashcards & quiz	Notes are long, unorganized and time-consuming to revise	Exams are near and I have no personalised study plan	Overwhelmed and unprepared

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student with lecture notes and study material.	Turn my notes into a summary, flashcards and a quiz.	My material is long and unorganized to revise.	I have limited time and no quick way to test myself.	Overwhelmed and anxious about exams.
PS-2	A student preparing for upcoming exams.	Follow a clear, structured study plan.	I don't know what to revise first.	No plan is generated from my own uploaded material.	Unsure and unprepared; want to feel confident.
